Micro-credential in
Sustainability

Co-developed by

HELSINGIN YLIOPISTO

ALMA MATER STUDIORUM
UNIVERSITÀ DI BOLOGNA

JAGIELLONIAN UNIVERSITY
IN KRAKÓW

[Overview](#) [Programme Information](#) [Courses](#) [FAQ and contact](#)

Five Courses

- Introduction to Sustainability
- Climate Now
- Biodiversity now
- Political Economy of Sustainability
- Sustainability and Arts

Welcome to learn the basics of sustainability!

In this course, you familiarize yourself with the concept and different pillars of sustainable development, including their synergies and trade-offs.

The course is the first part of [UNA Europa Micro-credential in Sustainability](#).

It is a MOOC

- A course that can be studied online at your own pace
- Learning outcomes are assessed against transparent standards

Two registrations are needed

- @ Paris 1
- Already chosen your minor:
<http://ipweb.univ-paris1.fr>
- Still you can change by the 4th of October, two options:
 - Email to licences1-2.ees@univ-paris1.fr
 - Going to Pôle Licence, office B1504, PMF

- @ MOOC platform

- <https://courses.mooc.fi/>

Introduction to Sustainability

The course consists of the following chapters:

1. Sustainable development as a concept and in politics
2. Ecological sustainability
3. Social sustainability
4. Economic sustainability
5. Cultural sustainability
6. Towards a sustainable future

Introduction to Sustainability

Learning outcomes

After the course, you will be familiar with sustainable development as a political and normative concept, and recognises its ecological, social, economic and cultural dimensions and the connections and conflicts related to them. You will understand that sustainable development and the wicked problems related to it, such as climate change, require multidisciplinary cooperation and problem-solving skills. You will understand the significance of individual agency and global responsibility as well as the need for comprehensive transformation.

Course content

The course consists of the following parts:

1. Sustainable development as a concept and in politics
2. Ecological sustainability
3. Social sustainability
4. Economic sustainability
5. Cultural sustainability
6. Towards a sustainable future

Chapter 1/History-Of-The-Concept-And-International-Conferences

History of the concept and international conferences

In this page

History of the concept and international conferences

Factsheet 1.1 International and national actors

Evaluation: MCQ and short essay

Exercises consist of multi-choice questions as well as short writing tasks. You can see the list of exercises under the Table of contents of each **Chapter front page**.

 The meaning of transition

Points:
0/1

Transition refers to a fundamental change in people and the biophysical system.

True

False

SUBMIT

 Your own leverage points

Points:
0/1

a) Identify different communities and parts of society that you are involved in. What kind of choices or actions can you take in your circles to promote climate responsibility? Think about your carbon footprint but also carbon handprint.

b) Can you identify some leverage points or 'golden spots' for you to initiate large effect with moderate effort? Think of transitions and transformations.

MIN WORDS: 700 | MAX WORDS: 1000

Answer

WORD COUNT: 0

SUBMIT

Peer Review activities

If you get an inappropriate essay to peer-review → report it

There are several essay tasks that you will write and in the second phase peer review a few tasks written by your fellow students. If you encounter an inappropriate essay by a fellow student, it is your obligation to report it. In the left corner of the peer-review page there is a Report button. You can select one of the three options for reason of reporting (spam, harmful content or AI-generated content), or provide your own explanation. Reporting an essay will result in the essay being manually reviewed by a teacher.

Credits

- PASS/FAIL
- Certificate delivered by UNA Europa at the end of the course if pass
- It does not directly affect your overall average

Thank you!
