As we know, cultural critics often distinguish between high culture and popular culture.

Many observers would agree that American high culture produces significant soft power for the United States. (...)

International students return home with a greater appreciation of American values and institutions and, as expressed in a report by an international education group,

The millions of people who have studied in the United States over the years constitute a remarkable reservoir of goodwill for our country (...)'

Soft Power (J. Nye)

'The line between information and entertainment has never been as sharp as some intellectuals imagine, and it is becoming increasingly blurred in a world of mass media. Some lyrics of popular music can have political effects. (...)

The popular cultural resources that can produce American soft power are important, but they are far from static.'

Europe

Currently, the closest competitor to the United States in soft power resources is Europe.

European art, literature, music, design, fashion and food have long served as global cultural magnets.¹
